## Desktop Products

### Increase your ability to understand and communicate!

In today's digital world where English is less predominant, it is key to rely on powerful translation capabilities that help improve cross-border communication. The new **SYSTRAN 8 Translator** for PCs enables individuals, freelancers and businesses to instantly understand information in foreign languages and collaborate more effectively internationally, while maintaining privacy.

Whether your objective is personal or business-related, SYSTRAN 8 Translator allows you to translate in a secure way, without any internet connection, the most popular file formats from plain text, Web pages and office document to emails and PDFs. Translation memories and various multilingual dictionaries ensure the accuracy of your translations.

SYSTRAN 8 Translator is available in two editions: *Essential and Professional*.  
Select the languages you need among more than 50 language pairs!

ESSENTIAL

PROFESSIONAL
